

**2 DAYS TRAINING COURSE ON INVERTER AIR CONDITIONER – INSTALLATION & TESTING (MODULE EAC001/15)
ON 25TH – 26TH AUGUST 2015 AT ADTEC, SHAH ALAM**

25th August 2015 – Day 1

Theory

- i) - Understand the concept of air-conditioning inverter
- ii) - Inverter components and controls
- iii) - Refrigerant used
- iv) - Capacity of system
- v) - Piping system
- vi) - Wiring system

26th August 2015 – Day 2

Hands On Practical at Workshop

- i) - Installation of inverter air conditioner
- ii) - Testing and commissioning for inverter air conditioner
- iii) - Log reading study – Confirm operation data and performance of inverter air conditioner
